

Restoration of the organization of milk processing and production of dairy products on the Private Joint Stock Company "LACTIS"

Project description	
Project initiator	Marinka city military-civil administration of the Pokrovsky District of Donetsk region
The essence of the project	Restoration of manufacture. Creation of new jobs (the previous number was 240-260 people). Replenishment of the budget of the Marinka city territorial community.
Project goal	Development of rural areas and the food industry. Providing the population with high-quality dairy products at affordable prices.
Compliance with strategic documents and assignment of priorities	The project goals correspond to: - Task 1.2.4. "Development of a modern system of agricultural products processing in accordance with market needs" operational goal 1.2. "Reasonable specialization based on knowledge and innovations" strategic goal 1 "updated competitive economy" of the Donetsk Region Development Strategy for the period up to 2027.
Study of the problem that will be solved as part of the project implementation	<p>One of the city forming enterprises of Marinka was a Private Joint Stock Company "LACTIS" - an enterprise for milk processing and production of dairy products. The fighting in the Donetsk and Luhansk regions resulted in the mass shelling of the city of Marinka and Private Joint Stock Company "LACTIS" on the night of July 11-12, 2014, during which production workshops, warehouses and utility rooms, an administrative building, Freon-based refrigeration equipment used directly in the production of dairy products of the enterprise were damaged. In addition, the storage rooms of finished products were destroyed. The rolling stock of the fleet, which was used to deliver finished products, was partially destroyed.</p> <p>The Chamber of Commerce and industry of Ukraine has certified the occurrence of force majeure circumstances of Private Joint Stock Company "Laktis" in the course of economic activity, about which Certificate No. 2374/05-4 was issued on 15.08.2014.</p> <p>As a result, the company does not have any technical capabilities for further production activities and, therefore, does not have a source of income. The situation that arose in this way led to a temporary conservation of manufacture.</p> <p>Restoration of damaged workshops and equipment will allow starting production, which will contribute to the development of rural areas. milk supplies from the farms of agroindustrial firm Agrotis LLC will resume. Jobs will be restored, which will have a positive impact on the community budget.</p>
The estimated cost of the project amounts to	10 000,0 thousand UAH
